

### Linear predictor $\mu$ in the model

`posterior_linpred(..., tibble(flipper_length_mm = 201))`

### Expectation of the posterior $E[y]$ and $\mu$ in the model

`posterior_epred(..., tibble(flipper_length_mm = 201))`

### Posterior predictions Random draws from posterior $\text{Normal}(\mu, \sigma)$

`posterior_predict(..., tibble(flipper_length_mm = 201))`
